

Welcome to the Laptop Ministry

A Ministry of the Peoples Church of Chicago
October of 2025

About Us

The Laptop Ministry, an initiative of the Peoples Church of Chicago, is dedicated to serving the under-served in the Chicago area by providing Linux-based laptops to those in need. For nearly two years, we have been bridging the digital divide in our community, empowering individuals with access to technology while deterring e-waste pushed by planned obsolescence. To date, we have served **60+ people in need** with refurbished laptops, helping them connect, learn and grow with support from the community.

Our Mission

We believe access to technology is essential for education, employment, and personal development. By refurbishing and distributing laptops with Linux operating systems, we provide reliable, secure, and cost-effective tools to those who might otherwise lack access. Our work is rooted in the values of compassion, community, and service, as we strive to uplift the Chicago communities and beyond.

How You Can Help

We accept donations of laptops not older than the 2010 era to ensure they meet the needs of our recipients. You can drop off your laptop donations 24/7 at the receptionist desk of the ICA Building located at:

4750 N Sheridan, Uptown, Chicago

Support Our Work

Financial contributions are also welcome! You can make a donation at: peopleschurchofchicago.org with a note specifying "Laptop Ministry." For inquiries, leave a voicemail at **773-784-6633**, and our team will check messages weekly.
